Reiki is Japanese for "spiritual energy". It is a technique for relaxation and stress reduction that also promotes healing for both humans and pets. The spiritual energy is administered through the laying of warm, Reiki-charged hands over much of the client's clothed body. Treatments have been described as a feeling of wonderful glowing radiance that flows through and around you. Although results are not guaranteed, it is legitimate to seek out Reiki in order to achieve all of the following goals: healing, prevention of illness, spiritual blessing, relaxation, stress-reduction, and energy rejuvenation.

I will treat either you or your pets, at my office or in your home. My fee is \$60/hr and a minimum of \$10 per session will be donated back to Christ Church. Sessions longer than one hour will have a larger contribution to be determined.

Please contact for more information or to schedule a session!
